Abstract

High-quality video synthesis.

1 Introduction

High-quality video synthesis.

1.1 Key Features

- Professional video quality
- Advanced diffusion model
- Multi-shot consistency
- Flexible conditioning

2 Technical Specifications

Parameter	Value
Type	Video Synthesis
Quality	Professional
Architecture	Diffusion
Features	Multi-shot

Table 1: Technical specifications

3 Zen AI Ecosystem

Part of the complete Zen AI hypermodal ecosystem:

Language: zen-nano-0.6b, zen-eco-4b, zen-agent-4b

3D & World: zen-3d, zen-voyager, zen-world

Video: zen-director-5b, zen-video, zen-video-i2v

Audio: zen-musician-7b, zen-foley

Infrastructure: Zen Gym (training), Zen Engine (inference)

4 Conclusion

High-quality video synthesis.

Acknowledgments

Thanks to the open-source community and our upstream contributors.
